EXPERIENCE

BYU-Hawaii, Laie HI — *Developer*

FEB 2020 - FEB 2021

● Created websites based on business needs using our CMS

● Developed and pioneered new technology for creating websites and apps to increase productivity.

● Integrated old systems with new ones to increase usability and security

Martindale-Nolo, Pleasanton CA — *Front-End Dev Intern*

OCT 2019 - FEB 2020

● Created responsive, mobile-first web applications using HTML5, CSS3, and JS following design specs.

● Developed pixel-perfect designs and deployed projects to generate leads and boost sales.

● Used Agile methodology to collaborate with teams on multiple projects and deliver projects on deadlines.

BYU-Hawaii, Laie HI — *Student Developer*

DEC 2016 - JUN 2019

● Created a full-stack Java application using Spring MVC architecture for web development and utilized the CRUD design pattern.

● The application managed 3,500+ students' tests for every class each semester.

● Automated tasks and generated custom reports to improve productivity.

● Worked closely with stakeholders for the needs and designs and executed those plans.

Varian Medical Systems, Palo Alto CA — *Software Development Intern*

JUN 2017 - AUG 2017

● Utilized Bootstrap, JavaScript and Angular.js to create the application from scratch and finished within 3 months.

● Majority of duties included front-end development and Quality Assurance testing.

● Optimize and improve front-end performance by optimizing files
